POM-372. A resolution adopted by the Senate of the Legislature of the State of Michigan relative to tobacco subsidies and food-producing agricultural activities; to the Committee on Agriculture, Nutrition, and Forestry.

SENATE RESOLUTION No. 68

Whereas, For many years, even as our country has wrestled with the costly and harmful effects of tobacco use, Americans

have provided financial support for tobacco farming through federal tobacco subsidies. These subsidies include money spent for tobacco crop insurance and price support, in addition to inspection and grading services. While changes in federal agricultural programs and law have significantly reduced money going to tobacco farming and related activities, federal dollars continue to be spent on an endeavor that is harmful to our citizens; and

Whereas, One of the greatest challenges facing humanity in any age is the production of food of sufficient quantity and quality to meet ever-rising needs. Investments in the process of raising crops are among the most important commitments we can make to future generations. Subsidies for food production, research, and marketing hold the potential to touch every citizen in a positive fashion; and

Whereas, With the recent settlement among the states and the tobacco industry, the enormity of the cost tobacco exacts on our society is clear. Any money going to support any aspect of this activity would be far better spent elsewhere; now therefore, be it

Resolved by the Senate, That we memorialize the Congress of the United States to end tobacco subsidies and to redirect this support to food-producing agricultural activities; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.
